

JUNE WINNER

# 75 Red Buckets of Surprises!

“ Advance Tank & Construction fabricates and erects above-ground storage tanks for the biofuel, oil & gas, petrochemical, and transportation industries, along with other miscellaneous industries. We also fabricate and supply shop-built tanks. As proven in the pictures, we apply more Carboline products than any other at our indoor blast and paint facility in Pell City, AL. Our local rep, Tim Holmes, is always quick to respond to any issues that may come up. Our coating foreman prefers Carboline over any other coating manufacturer because of the service and technical help Carboline provides. ”
