

# *History.* Service. Innovation.

Carboline has been making high performance coatings and linings for 70 years. As shown in this picture from our archives, circa 1960, we have a long history in the marine industry. Our comprehensive line of zinc primers, epoxy anticorrosives, topcoats, IMO-approved ballast tank linings, and antifoulings provide a long service life. Our proven performance in this industry means you can trust that we have the right solutions for your project.
