

SEPT WINNER

# 70 Red Buckets of Surprises!

“ Earlier this year Paint Supply Company became a Carboline Distributor. The past relationship between Sales Representative J. B. Bailey, our Carboline Sales Representative, Will Whitescarver and me played a key role. The three of us began our careers in the paint industry together at Glidden Paint Company back in the 80's. We crossed paths many times over the years. We have now come together once again. We have over 30 years of trust, product and market knowledge. Additionally, Chris Tiernay becoming President of Carboline, bringing his understanding of the distribution channel, solidified our assurance we had a formula for success. Will Whitescarver has already brought us opportunities that he has been working onto ensure Carboline is specified. This allows us to generate leads for our customers such as Georgia Pacific Big Island Paper Plant and Advan 6 Chemical Plant. Will is always quick to respond to our request, problem solver and has a vested interest in helping us grow our company through Carboline Coatings.

We look forward to growing our partnership for years to come! ”

Barry Vaughan
